**MESSAGE FROM THE GRAND DEPUTY COMMANDER**

Sir Knights, Did you know that there is a convenient way for you to update your address and other contact information?

The Oklahoma York Rite has access to a national database where you can update your own personal information such as phone number and address without contacting your local secretary/recorder. This is a very convenient way to update your personal information in a quick and timely manner. Simply login to the database at:

<https://www.masonic-web.com/mms/memberbio/>

You will need your Knight Templar membership card which has your membership number on it. Although you will be signing in as a Knight Templar, any updates you make will be applied to your membership in Chapter, Council, and Commandery as well as the Allied Masonic Degrees (AMD), any many other Masonic organizations that have subscribed to this service. This is one place where you can update your phone number, place of residence/ mailing address, and add/change an email address, spouse and children information. This information is not shared or sold to any third party organizations but is used by Grand Encampment to mail out the Knight Templar Magazine and the information that you enter can only be accessed by local recorder/secretary of the organizations that have excess to the database. Please consider checking out your information and verify that the information is current and make updates to your own personal file.

Sir Knight Robert Rolseth
