

Greetings Sir Knights!

It is the last week of April I sit down to write this supplement and we are still practicing self-isolation, protecting ourselves and fellow citizens from the Novel Corona Virus. We are still waiting for all those meetings I so look forward to attending to begin again. More than ever I miss the face to face contact afforded me by this great fraternity and can't wait to resume the normal routine.

The Annual Conclave scheduled in June continues to be a work in progress as I write this supplement. As we receive daily updates from Governor Scott and his team, we find a little more has opened every day, and with social distancing, we may be able to hold a limited, sparsely attended, Annual Conclave.

To all my Brethren, Companions and Sir Knights, please continue to stay healthy, keep washing your hands frequently, maintain safe distances from others, wear a mask in public and please reach out and continue to keep in touch with our fellow Sir Knights, Companions and Brethren.
