Sir Knights,

February Brings one of the most important Holidays in our Fraternity. I speak of Valentine's Day. A day to show special attention to our ladies. A day of Love and Joy. A day to remind us that we would not be able to have a fraternity if it were not for our Ladies. So, take this time to do something special to truly show them how much you appreciate their support. To many times, as men; we get wrapped up in buying them expensive gifts to show our love, but what they really want comes much cheaper.

I hope this message finds all well. I also hope by the time this is published we are starting to see the Vaccine is getting more widely distributed. Maybe even some of you have received it by now. I also hope our world is on the mend as we are seeing the light at the end now. With this anticipation I am hoping to salvage the rest of this year and possibly even get a official visit in or two.

I look forward to seeing you all soon,

RE Jaymie Vaughn
Colorado Grand Commandery

February is a Fun Time

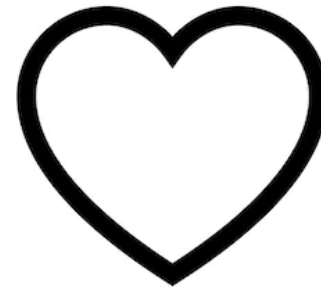

February has so much to do
in such a very short period of time
The month with only 28 days
or sometimes 29

Groundhog's day on February 2nd
shadows and spring are the lazy
Next comes Lincoln's birthday on February 12th
An excellent president was he

Valentine's Day is February 14th
When love is in the air
Then Washington's Birthday on the 22nd
Our very our first president was there

A time to share love and see shadows
With presidents lives to recall
February may be a short month
But it has more than enough fun for all
